

Our Philosophy

To develop the whole child in a nurturing and supportive environment.

To encourage a positive self-image, sense of uniqueness and develop self-confidence.

To develop fine and gross motor skills through a variety of age appropriate activities.

To stimulate creativity through arts, crafts, music and dramatic play.

To increase language skills through conversation, stories, puppetry, songs and children's literature.

To introduce reading, math and science concepts through play and "hands on" learning experiences.

To foster curiosity, creativity, enthusiasm and a love of learning.
